PRINCETON NURSERIES AT THE HISTORIC  
TOWN OF PRINCETON invite you to spend a few hours  
with us any time you can arrange to do so.

You are interested in nurseries and we are sure you  
will enjoy a trip of inspection through our up-to-date  
plant, one of the largest in the East.

Then, too, Princeton is a rare historic town, dating  
back to Pre-Revolutionary days and we will be pleased  
personally to show you the many nearby points of  
interest.

Trucking charges can be computed in advance by using the zone map and schedule. For example: delivering a \$500.00 order to Philadelphia, in zone 2 would cost 2½% of order or \$12.50. Further data for deliveries not covered by chart furnished on request.

## CREDIT AND TERMS

Cash with order is requested except from customers who satisfy us as to their responsibility.

## LIABILITY AND CLAIMS

We are not liable for injury to stock from frost, hail, fire or other causes beyond our control, and book all orders with this understanding. Errors made by us will be gladly corrected, but complaints must be made within ten days after receipt of stock.

Plants become your property upon delivery to transportation company, and we cannot be responsible for loss, damage, or delay in transit.

## PRICES

Prices are F.O.B. Kingston, N.J.

## ERRATUM

By a printing error this Hand-book is referred to on page 3 as a wholesale list. All prices are retail and we have published this book primarily for Landscape Architects and others who appreciate a comprehensive listing in compact and convenient form for ready reference.

THIS PRICE LIST IS FOR THE WHOLESALE TRADE ONLY.  
IF ANYONE FINDS IT IN THE WRONG HANDS  
PLEASE REPORT AT ONCE.

## NOTES IN EXPLANATION OF CATALOGUE

Boxed items call your particular attention to varieties on which we are offering especially attractive prices.

¶ The figures following each variety, indicate in feet the approximate height of that plant when mature. It must be understood, however, that many varieties in their native habitat greatly exceed this height, but soil and climatic conditions modify their growth and character to a variable extent, and allowance for this has been made in the heights given here.

¶ We recommend that all varieties marked with an asterisk be lifted with a ball of earth and burlapped. Experience has shown that the loss in these plants, which is otherwise high, is reduced to a minimum if handled in this way. This will involve an extra charge per plant, as follows:

2'-4', 20c      4'-6', 30c      6'-8', 40c      8'-10', 50c      10'-12', 60c  
Larger sizes in proportion. In all instances where varieties are  
marked B. & B., these charges are included in the printed  
price.

Reservations of specimen plants—For an additional 25% customers will be permitted to select and reserve specimen plants in the nursery blocks for future delivery.

Quantities of 5, 25 and 250 will be sold at the ten, hundred, and thousand rate, respectively.

## NEW HARDY EVERGREEN BERBERIS

We have a good assortment of these new varieties which are very attractive in both dark green holly-like foliage and showy flowers. We consider this class of stock one of the most valuable additions to the broad leaved evergreens. As a class nearly all have large thorns, spined leaves, and color beautifully in the Winter months. Under favorable conditions most of them will attain a height of about six feet.

*gagnepaini*. Has long and very narrow holly-like leaf.

*julianae*. Fairly rapid growth with broader spined leaves.

*laevis*. Similar to *julianae*.

*sargentii*. Leaves very lightly spined, otherwise similar to *julianae* in habit.

*triacanthophora*. Rapid grower, dense habit and small, lightly spined leaves.

"MAPLETON," a farm of three hundred acres with its massive stone house, was the Van Dyck homestead built in 1756 by Mathias Van Dyck. In December 1776 it was occupied by the British. It is now the home of William Flemer, Jr., and here hospitality awaits you as in days of old.
